IO-IDE-ENH-ISA	DEF	EA	P	CO	45	DEF	
IO-IDE-ENH-VLB	C	EA	P	CO	35	C	

WHO NEEDS THIS SOFTWARE?

If you need to make a lot of changes or additions to your Macola inventory item master file or item/location but have been dreading the hours and hours of time it will take to open the screen for each and every item, this utility is for you. Let's say that you want to:

- Change the product categories for 300 items or purchasing lead times for 4,000 items
- Add 200 new inventory items to your file
- Make massive changes to get ready to implement the MRP software
- Increase the selling price of 5,000 items by 5%.

Unless you use our utility or pay to have SQL scripts developed, you are faced with hours and hours of tedious keying and proof reading.

HOW DOES IT WORK?

Using a familiar Excel spreadsheet with powerful Visual Basic programming, this utility imports and exports data directly from and to your Macola database. We allow you to pick and choose only the data fields you want to view (from the list of 200 fields). We also allow you to add new items and export them to the item master and item/location files. It's easy to use.

KEY FEATURES and BENEFITS

- Excel-based (i.e. you do not have to learn new software)
- Eliminates hours of tedious keying and proofreading (i.e. happier employees)
- Better manage your company (i.e. happier employees)
- Low cost and unlimited phone support (i.e. no on-going maintenance costs)

WHAT DOES IT COST AND WHAT IS INCLUDED?

The cost is \$ 650 (US) and includes unlimited phone support for start-up and on-going questions.
